## Part II

### The Future, by Google

[maps.google.com](https://maps.google.com)

→ [www.openstreetmap.org](https://www.openstreetmap.org)

# Google Wave

**Google Wave** is an online tool for real-time communication and collaboration. A wave can be both a conversation and a document where people can discuss and work together using richly formatted text, photos, videos, maps, and more.

# Android

- 2nd place in market by 2012 (HTC, Samsung, Motorola, Dell, Acer, Sony Ericsson)
- 25% of software development is for mobile devices

## Part III

### Profit in the Ecosystem

## Choose the plan that's right for you.

Paid plans are billed **monthly** and can be upgraded/downgraded/terminated at any time without penalty.

# CITY SOURCED

[Home](#) | [Our Team](#) | [Recent Press](#) | [iPhone App Screenshots](#) | [See Our TC50 Admin Demo](#) | [Are You an Interested City?](#) | [Videos](#)

CitySourced is a real time mobile civic engagement tool. CitySourced provides a free, simple, and intuitive tool empowering citizens to identify civil issues (potholes, graffiti, trash, snow removal, etc.) and report them to city hall for quick resolution; an opportunity for government to use technology to save money and improve accountability to those they govern; and a positive, collaborative platform for real action. Our platform is called CitySourced, as it empowers everyday citizens to use their smart phones to make their cities a better place. CitySourced is powered by FreedomSpeaks, the leader in interactive civic engagement.

## FriendFeed is the easiest way to share online

Why FriendFeed?

What can you use it for?

Testimonials

Summer in Tahoe - <http://picasaweb.com>

### Sharing with family

Create a group and use it as a family mailing list. It's an easy way to plan trips, share baby photos, and post funny YouTube videos.

Ana Yang

Here are the results from our PR event tonight: <http://docs.google.com/a/friendfeed.com>

1 minute ago - Comment - Like

Interesting... I expected the signup rate higher from the new landing page. - You

### Sharing with co-workers

Create a private group for your company or colleagues to collaborate on a research paper, coordinate an upcoming event, or give status updates on the TPS reports.

The screenshot shows the Transifex website interface. At the top, there is a navigation bar with the Transifex logo (tx | Transifex BETA) and the tagline "the open translation platform". Navigation links include Home, Projects, Collections, and Languages. A search bar is also present. The main content area features a large heading "Bring Your Content To The Rest Of The World." followed by a paragraph describing Transifex as an open service for collaborative translation. A yellow button labeled "TAKE THE TOUR!" is positioned below the text. To the right, a browser window displays the Django project page, showing source details and a table of translation files for various languages.
